## Education

- 2021 – 2026  **Ph.D Statistics, University of Michigan, Ann Arbor.**  
Advisor: *Prof. Kerby Shedden.*
- 2019 – 2021  **M.S Statistics & Data Science, University of Nevada, Reno.**  
*Recipient of Full Scholarship from the Department of Mathematics and Statistics.*
- 2013 – 2017  **B.S Actuarial Science, Kwame Nkrumah University of Science and Tech.**  
Thesis title: *A Survival Analysis on the Surrender of Life Insurance Policies in Ghana.*  
Advisor: *Prof. Gabriel Asare Okyere.*

## Honors & Awards

- 2024  **Best Poster Award**, The Michigan Student Symposium for Interdisciplinary Statistical Sciences.  
 **Outstanding Graduate Instructor Award**, - *Honorable Mention* - Dept. of Statistics, UM.
- 2022  **1st Place**, Capstone Project Competition in Statistical Learning, The University of Michigan.
- 2021  **IABA Foundation Scholar**, The International Association of Black Actuaries (**IABA**) – \$3,000.
- 2020  **1st Place**, Capstone Project Competition in Bayesian Statistics, The University of Nevada, Reno.
- 2019  **1st Place**, Capstone Project Competition in Statistical Computing, The University of Nevada, Reno.

## Research Publications

### In Preparation

- 1  **B. Osafo Agyare** and K. Shedden, “Kernel-based expectile regression with inference for dependent data,”

## Teaching Experience

### Graduate Student Instructor, University of Michigan, Ann Arbor

- **STATS 401 - Applied Statistical Methods II** (~ 120 students) Winter 2024/Fall 2023
- **STATS 513 - Regression and Data Analysis** (Graduate Level ~ 51 students) Winter 2023
- **STATS 501 - Applied Statistics II** (GLMs, Mixed Models & Semi-Parametric Models) Winter 2023
- **STATS 306 - Introduction to Statistical Computing** (~ 40 students) Winter/Fall 2022
- **STATS 406 - Computational Methods in Data Science** (~ 75 students) Fall 2021

### Graduate Teaching Assistant, University of Nevada, Reno

- **MATH 127 - Pre-Calculus II** (~ 70 students) Spring 2021
- **MATH 181 - Calculus I** (~ 90 students) Fall 2020
- **MATH 126 - Pre-Calculus I** (~ 140 students) Fall 2019

## Teaching Assistant, *University of Ghana*

- STAT 224 - Introductory Probability II (~ 60 students) *Spring 2018*
- STAT 222 - Data Analysis I (~ 95 students) *Spring 2018*
- STAT 221 - Introductory Probability I (~ 60 students) *Fall 2017*
- ACTU 409 - Introduction to Actuarial Mathematics (~ 140 students) *Fall 2017*

## Work Experience

JUNE – AUG 2024

**Research Intern**, *Center for Global Health Equity, University of Michigan.*

- Work on NIH funded projects on health equity problems in developing countries.

MAY – AUG 2020

**Predictive Modeling Intern**, *EMPLOYERS Insurance Group.*

- Conducted Territorial Analysis on claim frequencies by employing Spatially Constrained Clustering Algorithms and Generalized Additive Models, leading to the re-clustering of rating territories for enhanced pricing models.
- Developed Loss Development Models utilizing Elastic-Net Poisson GLM, significantly enhancing the predictive accuracy of future losses and optimizing re-serve setting for the company.
- Constructed Pure Premium models through GLMs and Zero-Inflated Models for accurate prediction of future loss costs.

JAN – MAY 2020

**Graduate Researcher**, *University of Nevada, Reno.*

- Applied Bayesian frameworks to analyze federal election results for each state from 1992 to 2018, employing a novel Bayesian multilevel linear model for efficient simultaneous analysis of all states' data.

## Presentations & Posters

### Presentations

- 2024  **Joint Statistical Meetings**, Portland, OR, USA.
-  **The 32nd International Biometric Conference**, Atlanta, GA, USA.

### Posters

- 2024  **The Michigan Student Symposium for Interdisciplinary Statistical Sciences**, Ann Arbor, MI, USA

## Mentoring

 **Yunxuan "Haytham" Tang**, (*currently BS EECS at UM*)

*Winter 2024*

- Co-supervise Undergraduate Research Program in Statistics (URPS) project with Prof. Kerby Shedden, focusing on robust matrix factorization techniques for analyzing biomedical data.

 **Shuge Ouyang**, (*currently BS Math at UM*)

*Winter 2024*

- Co-supervise Undergraduate Research Program in Statistics (URPS) project with Prof. Kerby Shedden, focusing on robust matrix factorization techniques for analyzing biomedical data.

## Computing Skills

Programming/Frameworks     R, Python, SQL, PyTorch, TensorFlow, HTML, PHP, Javascript.  
Reproducible Research/HPC      $\LaTeX$ , Markdown, Terminal, git, Slurm.

## Service & Professional Memberships

### Service

2023+     **Computing Committee**, Dept. of Stats, University of Michigan, *Member*.  
           **Curriculum Committee**, Dept. of Stats, University of Michigan, *Member*.  
2022+     **Recruitment & Admissions Committee**, Dept. of Stats, University of Michigan, *Member*.  
2015-2016     **Actuarial Science Students Association**, KNUST, *Vice President*.

### Professional Memberships

2024+     American Statistical Association (ASA).  
           Institute of Mathematical Statistics (IMS)  
           International Biometrics Society (IBS).  
2020+     Royal Statistical Society (RSS).  
2019+     International Association of Black Actuaries (IABA).

## Miscellaneous Experience

### Certification

2021     **Certificate in Teaching Practice in Higher Education**, Association of College and University Educators (ACUE), USA.

### Actuarial Exams

SOA Exams     **Financial Mathematics, Probability, Statistics for Risk Modeling**.  
VEE     **Applied Statistical Methods, Economics, Corporate Finance**.
